Business Architecture SIG (BASIG) Report - Minneapolis

TC Meeting Date: 22 June 2010
Reporting Chair: W. Ulrich / N. McWhorter
Group page: <http://bawg.omg.org/>
Group email: bawg@omg.org

• Highlights from this Meeting:

- Team determined that we should focus case study work and model build out effort on most commonly used business architecture perspectives including:
 - Value net, value stream, value chain (Porter and Lean)
 - Capability model
 - Organizational model
 - Process decomposition / aggregation
 - Project / initiative and motivational mapping
 - Balance scorecard
- Priority one will be to focus efforts on balance scorecard
 - Research will begin based on team conference call / email discussion
- BASIG team requesting Standards Mapping Working Group to:
 - Focus efforts on related to Balance Scorecard focal point
 - Discussion will ensue in next working group meeting

- **Decisions Made:**

- Hold a BASIG Information Day in Boston in conjunction with BEI on Wed. of that week
- Work on case study, ecosystem model and related roadmap deliverables based on perspectives priority, starting with balance scorecard
- Develop Visualizations / Viewpoints white paper

- **Future Deliverables (In-Process):**

- Expanded case study
- Balance scorecard examples and related domains / concepts
- Related ecosystem model to support balance scorecard
- Mapping of domains / concepts specific to balance scorecard

- **Next Meeting:**

- Cambridge – Sept. 21st BASIG working day
- Cambridge – Sept. 22nd Business Architecture Information Day
